SAMPLE - NOT FOR PUBLIC USE

Your best items.
A little more story.

Love Corner adds a personal digital moment to the small treats you already serve. Around helps people discover participating places.

A coffee. A card. A little surprise.

Your staff prepare the approved item, confirm the guest's literal words and recipient language, then issue one card. The recipient chooses how to enjoy the moment. No reply is required.

STANDARD

Shared Love Corner pack, your venue card, selected menu, counter signs and staff handover.

BESPOKE

The same trusted workflow, with reviewed venue illustration, co-branding and a tailored presentation.

What you bring

A responsible contact, 2-3 suitable items, accurate service hours, approved art and a staff/device/print rehearsal.

What NJF prepares

A reviewed setup, public preview, reusable print/share kit and clear historical usage information when enough eligible data exists. Publication and statistics need separate decisions.

Let's shape this around your place.
